

## HPWS CELEBRATED 55 YEARS WITH THE PEOPLE WHO MADE IT HAPPEN - OUR CUSTOMERS

At the end of June Hi-Performance Wash Systems celebrated the 55<sup>th</sup> Anniversary of our company supplying car washes in the Rocky Mountain region. We hosted an event where 100 people attended from three states so they could take classes in car washing, mingle with manufacturer representatives and peers in the industry.

Everyone who signed up online ahead of time received a binder with all their class materials inside, an agenda, a list of the huge sale items of the day. Classes were lined out in sections for self serve, automatic and tunnel customers with a few that crossed over all segments. The classes started early so we made sure everyone was fed with a catered breakfast. That may have only been bested by the pig roast at lunch!

Our manufacturers were very generous to increase our pool of door prizes that were given away every hour as well as with their time to come to Denver and sharpen our car washing skills. Those who attended included P & S Detailing Products, CAT Pumps, Diamond Shine, Rowe Changers, Lustra Car Care, SONNY'S, Innovative Control Systems, PurClean, Car Wash Boilers, and Mile Hi LED lighting.

*How about a double pig roast for lunch? Yes please.*

*Tom with Rowe Changers and Gary with HPWS*

*3535 Pump Repair with Dennis from CAT Pumps*

*Crazy sale prices went on during the day*

It was a really fun day where everyone had a chance to rub elbows with fellow car wash owners, discuss the classes they had attended, how business has been and listen for the hourly door prize announcements. The prizes included tools, shirts, a Sonny's LED light bar, Dosatron's, \$250 in soap, \$50 Home Depot Cards, back packs, and other trinkets.

This was also an opportunity for HPWS personnel to have face time with those who they do not always cross paths with. We received a lot of ideas and feedback on our operations that were great to listen to and consider implementing. Another area where we received lots of feedback on was the car wash tour of Eco Express. Rich Wells was conducting tours while Jeff Wizer from ICS was doing recurrent training, Jason was teaching on Dosatron maintenance and large pumps were being rebuilt in the dry equipment room by Dennis. All around it was a fantastic day and we thank everyone who attended.

## CAR WASHES FOR SALE
