CAR WASH NEWS

CANISTER VACUUM Spring Maintenance

The warm weather will bring out the customers for vacuuming and ensuring strong suction and low maintenance costs are critical. Checking the hose and claw, filter bags, motors, gaskets, and an electrical check will ensure proper operation and can be done on your own or by a HPWS technician.

Nozzles – Worn nozzles with rounded claw edges reduce the suction and should be replaced.

Hoses – The hose should not only be clean in appearance but also have a good connection to the canister. Any leaks cause a reduction in the vacuum capabilities and reduce effectiveness.

Filter Bags – The filter bags should also have a tight seal against the canister and be checked for damage and cleaned with a low pressure hose or in a washing machine. Bags should be shaken out weekly and only used when completely dry.

Gaskets – Gaskets should be without damage or excessive wear for the motors and both doors. These are inexpensive and easily replaced.

Electrical – An electrician or technician should check the wire connections and motor draw (2 motor – 16 amps, 3 motor -24 amps) for signs of potential issues.

In addition to proper maintenance make sure to clean the units and replace decals so the units appear in good working order so customers are attracted to use them often.

*HPWS will be closed
Monday, May 30, 2016
for Memorial Day.*

ICA SHOW

The *International Car Wash Association (ICA)* show is just around the corner. You can register, see the schedule and find out about Hotel and Travel at www.thecarwashshow.com or www.carwash.org.

The dates for the show are May 9-11, 2016 in Nashville Tennessee. The headliner will be Kellie Pickler at the opening event and Scott Moore, retired United States Navy SEAL Rear Admiral as the Keynote Speaker.

HPWS will be in attendance with several staff members; Jim Blake, Chris Bateman, James Trevino and Shane Wells. We look forward to spending some time with you so please let us know in advance if you plan on attending so we can be looking for you to visit with.

ROWE BILL CHANGER REPAIR

Recently Rowe has been having some supply issues with one of their vendors, and it is affecting parts availability for repairs. They hope to have this resolved soon, but please be aware this may cause a delay in repairs to Rowe validators.

SPOT FREE RINSE TANKS Tunnels

Due to the level of water in the RO storage tanks being higher than the lowest nozzles on the arch it has the potential of causing a siphon even when the re-pressurization pump is not in operation. If this is occurring and observed, then it is likely to happen regularly causing your location's water expense to increase. This can be deterred by a check valve or solenoid valve to stop the siphon. Contact our service department for proper assessment/installation and in the meantime allow the water level to lower before closing at night by turning off the production unit. Of course the opening procedure will need to include turning the production unit on or there will be empty tanks before too long.

SONNY'S ELECTRIC WRAP TECHNICAL BULLETIN

The spindle on the electric wrap has been changed and no longer uses a split collar coupling to mount it to the gearbox. The new design uses a center mounted bolt to attach to the gearbox. The old design had a small gap between the spindle and gearbox that would allow it to bend if caught on something. The new design pulls the spindle tight to prevent this from happening. This is an optional but not required retrofit. Please call us to schedule a change if you would like it to happen.

CARWASH FOR SALE:

Three (3) Bay self-service car wash and 49 mini-storage units on seven (7) lots in Northwest Colorado. For more information call 970.276.3195.

The car wash and storage units are a single business on the combined lots.

PRICE INCREASES

The following manufacturer has announced increases for May 2016:

Purclean -Reclaim additive

UPCOMING CLASSES IN MAY

There are no classes scheduled in May at HPWS. For information on upcoming classes contact **Cindi Reynolds** at 303.322.2232 or email her at adminassistant@hpws.com.

There are no SONNY'S classes in May:

Please go to www.sonnysdirect.com for upcoming classes.

Place your order
at least 30 minutes before
 you come and it will be ready
 when you get here!
